

JOHN FRANCIS McLAUGHLIN, JR.

*Army
St. Francis Prep
German Club; Mendel Club.*

Mac is an amicable fellow who doesn't say much but when he does, look out!—It's common sense. Many people today are lacking that power and it is here that Mac is rich. As for women, using his own words—"Veni, vidi, vici" and she must be swell, judging from the type Mac would strive to conquer. Returning from the Army he swung into the field of Biology for his major, and he hopes to prepare for outside biological work. We know he will be successful and happy, especially in making friends.

"AND NOW—JUST A FEW WORDS..."

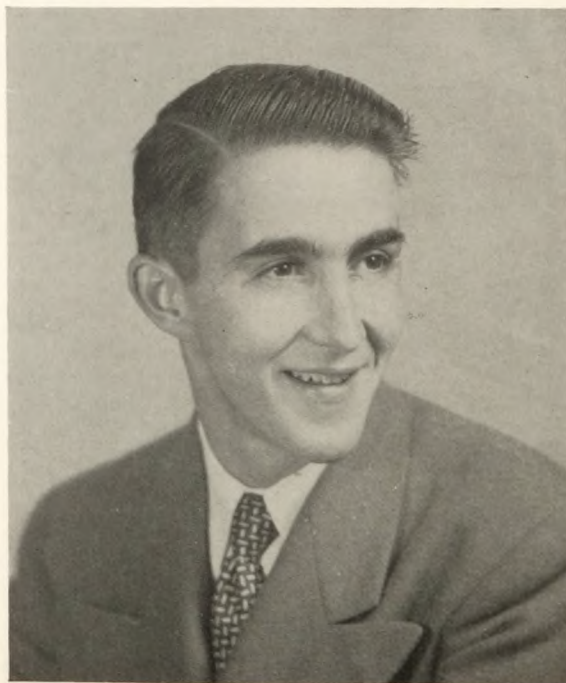

DONALD FRANCIS McCARTY

*Marines
St. Agnes H. S.*

Pi Alpha; Indicator Club; President, Senior Class

"Mac" or "Pete" is what he answers to. Forever smiling and talking and rushing to catch that train. We'll never understand how we won the war in the Pacific with Mac fouling things up from Hawaii to Japan. Get him to tell you his unique war stories and you're in for a treat. 130 lbs. soaking wet, he is a small bundle of ambition, energy and fervor. Loves beer, ham sandwiches, the Giants and Margie. Once a Chem major, he decided to get acquainted and switched to Philosophy; something about Phys-Chem. and barbarians.

His ambition is to become a Rhumba expert.

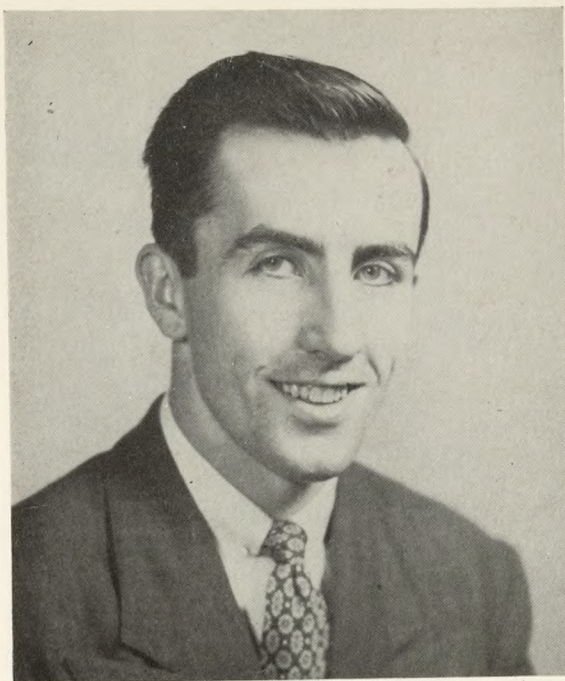

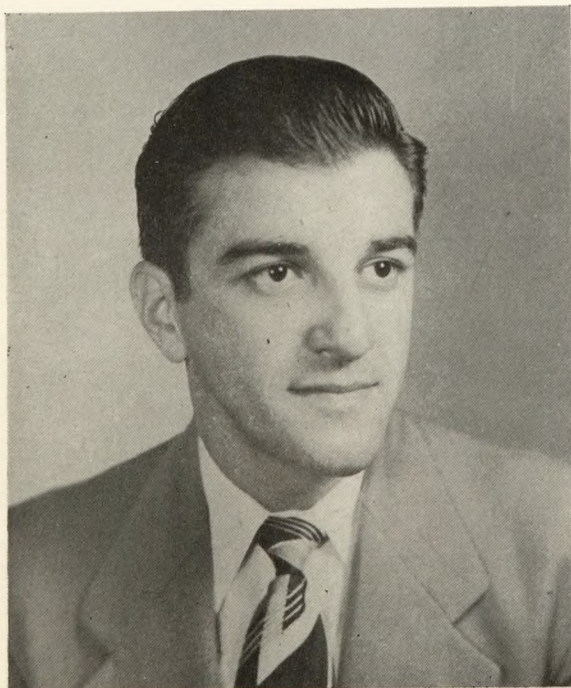

EMIL ALFRED MELE

Army

*William Cullen Bryant H. S., Maryland U.
Captain Basketball Team; Math Club; Who's Who*

Emil is well known throughout the college. He is majoring in Mathematics and is not sure of what he intends to do after graduation. Emil had many outside interests but his recent marriage has cut down on his bachelor free time. A member of the varsity for three years, Emil is an outstanding player on the boards. Possessing many capabilities, we are sure that Emil will be a success.

JOHN R. MORGAN

Navy

*La Salle Academy
Math Club; Varsity Basketball.*

Jack came to St. Francis to complete his education. He spent the first two years of his college career in a naval uniform. Jack played with the crack Fleet City five while in the service, and joined the St. Francis five immediately after his return. Jack is one of those "slip-stick" boys—a Math major. "I'm going to meet my girl for dinner," answers Jack when he is asked why he is wearing dressy attire.

"Here comes Morgan..."
