

FLYING CLUB

Attilio Avidano at the controls of his training plane. This is Attilio's second year at the controls.

Under the moderatorship of Brother Michael Spina, the Flying Club of St. Francis College moved its flyabouts to Long Island from Richmond County Airport on Staten Island. Two courses, one in the fall and a second in the spring, were part of the expanded training program. Many of the past students returned to the club to further improve their aviation skills.

It is hoped that the new members of this club will add to the already growing numbers that have taken this worthwhile course.

Brother Anthelm Drowne, the moderator of the Third Order.

THIRD ORDER

The Third Order Secular of St. Francis was established to provide a keener insight into the problems confronting the Church.

With this goal in mind, Brother Anthelm and Prefect Ken Wheeler continued their policy of monthly discussion groups. Featuring at various times, the presence of guest speakers, further light was shed on problems of both a liturgical and theological nature. Open discussions followed each of these gatherings, and afforded those present a greater degree of participation in the lay apostolate.
