

The Cord

The Cord, Freshman handbook of St. Francis College, underwent a "face-lifting" job this past summer. Since many changes had taken place around the College over the last two years, it became necessary to bring the handbook up to date. To handle this task, a committee of three volunteers supervised the revision, surrendering a few nights a week during July and August. The committee consisted of Editor-in-Chief Ben Occhiogrosso, '56, Associate Editors Tom Scully, '56 and Buddy Brogan, '56.

The purpose of the Math Club is to stimulate interest in mathematics and closely related fields. Under the guidance of Brother Leo, the members learn how to use such instruments as the sextant, angle mirror and the pantograph. Practical experience is gained by numerous field trips during the college year.

Math Club

Student Group Leaders

The Student Group Leaders are a relatively new idea at St. Francis. Comprised of those students with high extra-curricular and academic standing, they attempt to encourage and assist the student body in all phases of college life.

N. F. C. C. S.

St. Francis College is represented in the N.F.C.C.S. by four representatives elected at the beginning of every school year by the Student Council. The Federation was formed to develop lay Catholic leadership among college students.
