

PSYCHOLOGY CLUB

Under the able leadership of Mr. John O'Leary, the Psychology Club, although only four years old, has established itself as one of the leading clubs of St. Francis College.

In its endeavor to familiarize its members with the ever changing and unstable world of psychology, the club has sponsored a variety of activities including field trips, lectures and films.

ECONOMICS CLUB

The Economics Club has presented in 1968-69 a program of prominent speakers to aid in its far reaching goal of promoting interest in the field of economics. The job of the Economics Club is endless due to the vastness of the field with which it is concerned. Economics majors find this club very useful in supplementary classroom and "book" knowledge with practical problems which they will inevitably encounter.

The club established in 1964 has continually grown and as of this year boasts one of the largest memberships in the college. Under its Moderator, Professor Michael Casey the club sees continued growth in the future and looks forward to a successful economic coming year.
